Restriction/Election

Sir:

Applicant acknowledges that a Restriction Requirement dated June 13, 2005 pertaining to the above referenced patent application has been received. The Restriction Requirement requires an election between Group I, claims 1-5, drawn to a method for manufacturing a dimensionally stable packaging container and Group II, claims 6-9, drawn to a laminate for manufacturing a dimensionally stable packaging laminate. It is the Examiner's position that the product as claimed can be used in a materially different process of using that product such as with no need to the steps of folding nor cooling the container.

Applicant hereby elects Group II, claims 6-9 **with traverse**. Applicant traverses this restriction requirement, as the examination of both groups of claims does not place an undue burden on the Examiner. This application is a CIP of application serial number 09/704,651, which is a CIP of application serial number 08/983,591, all of which contained both sets of claims and received examination on both sets of claims. The present application differs from the parent application in that heat treatment of the container occurs without the application of mechanical pressure thereto. The claims of both Group I and Group II include this limitation. Therefore, it is applicant's position that the claims of Group I should be examined with the claims of Group II. Applicant respectfully requests that the restriction between Group I and Group II be withdrawn and claims 1-9 be examined together.

Conclusion

If the Examiner has any questions regarding this amendment and/or believes that a telephone interview would assist in the advancement of this case to allowance, he/she is invited to contact the undersigned Agent for Applicant.

Respectfully submitted,

by Michele K. Yoder
